

Section 1 – Annual Governance Statement 2017/18

Paragraph 4:

We have agreed a “No” response for the following reasons.

It was our intension to start the period for exercise of public rights on 5th June 2017 and to finish the period on the 14th July. As such the period covered 30 working days and the first 10 working days in July.

Unfortunately the notice issued, due to a drafting error, wrongly terminated the period on 3rd July (Rather than the 14th July).

As such the notice issued did not meet the statutory requirements for the exercise of public rights.

The accounts were published on our web site at the start of this period and have remained available on the site since that date. Also, our Responsible Financial Officer whilst he has never received any request to view the accounts, would not have refused a request if it was received outside the period of notice.
